## PRISONER IS TREATED WELL BY MEXICANS

Servant of Captain Rush Given Fair Trial on Charge of Being Spy, and Released.

Mexico City, June 22.—Gregorio Alaraz, Filipino servant of Captain Rush, of the battleship Florida, for whom the American State Department instituted a search, walked into the Brazilian legation to-day and introduced himself to the minister. The Filipino, who had been held in the Legation since he was released from the American military prison on June 9. At the invitation of a fellow-prisoner, a Mexican, he went to Tlalapa, where he remained until this morning, when he was a newspaper account of the search for him. He came here immediately.

Alaraz said he left Vera Cruz on May 4 to buy fruit for Captain Rush, on passing the Mexican line, was arrested at Tlalapa as a spy. He gave his right name, but did not reveal his connection with the United States Navy. The next day he was taken to Vera Cruz, where he remained until May 2, when he was transferred to Cordoba. Later he was sent to Mexico City. Alaraz said he was tried and acquitted of the charge of being a spy for the Americans. The trial, he added, was a fair one. The judge, Alaraz said, expressed disapproval because the Filipino had been deprived of his money by the authorities at Tlalapa. His property was returned.

At the trial Alaraz did not reveal his connection with the American Navy, saying he left Vera Cruz to look for a piece in Soledad with the object of getting married.

The Filipino was furnished with enough money by the Brazilian legation to pay his expenses, and he will leave Mexico City to-morrow for Vera Cruz.

Alaraz said he had received all the privileges accorded Mexican prisoners. His statements fully corroborated those of the Mexican War Department, which is shown to have acted in good faith.

## RUMBLINGS OF WAR TAKEN TO WHITE HOUSE

Greece Urges Wilson to Sell Two Battleships, White Turkey Would Prevent Deal.

Washington, June 22.—With the Turkish government formally protesting against the proposed sale of the American battleships Mississippi and Idaho, to Greece, rumblings of war between Greece and Turkey were taken to-day to the White House. Diplomatic representatives of the two countries called on President Wilson, one to urge and the other to oppose the warship deal. Greece takes the position that if she buys these vessels, the balance of power in the Mediterranean will be preserved, and the peace maintained, while Turkey claims that peace can best be gained by the refusal of the United States to aid in augmenting her naval power.

President Wilson took up the matter in the day that he favored the sale of the battleships to Greece, because it had been represented to him that such action would bring about a lasting peace. He said if he thought the interest would be used in an immediate war, he would not consent to their sale.

The question is to come up in the House to-morrow, off a Senate amendment to the naval appropriation bill. Secretary Daniels desires the \$12,000,000 which Greece is willing to pay for the battleships, build another Dreadnought, and most of the leaders in Congress have been inclined to authorize the step.

wounded his wife on Sunday afternoon and then committed suicide, according to special dispatches received from Honaker to-night.

The woman, mortally wounded, crawled to a neighbor's house for assistance. Stump died instantly. They had been married but a short time, and were said to have become estranged. When Mrs. Stump refused to return to her husband's home, according to information, Stump is said to have shot her three times with a revolver. Both are members of prominent families.

## THOUSANDS DROWNED IN FLOOD DISASTERS

[Special Cable to The Times-Dispatch.]—London, June 22.—Appalling flood disasters have occurred in China, according to advices received here by a condensed milk company from its Hong Kong manager, who recently returned from a trip into the interior. He cables that the West River region is inundated for miles. He states that the flood commenced on June 15, and is the most serious in more than 50 years. The damage is estimated at \$5,000,000. Many thousands have lost their lives. The towns submerged and practically wiped out include: Sun Chow, Kien Chow, Win Chow, Do Sing, Tsin Chow, Kung Chow, Kung Chow, Kung Chow, and a number of surrounding villages. The crops along the Samsui-Canton Railroad have been entirely destroyed. Practically all telegraph wires in the devastated district are down. The water rose seventy-two feet in three days.

## MOVEMENT OF TROOPS IS DIRECTED BY VILLA

By Means of Field Telegraph He Is in Close Touch With Army at Zacatecas.

## TRAIN HELD UP BY WASHOUT

Only Matter of Hours Until He Personally Takes Charge of Attack on Belaguered City—No News of Fighting.

Jimulco, Mex., June 22.—The trains carrying Generals Villa and Angeles, their staffs and their escort, reached Jimulco early this morning, and have been tied up here all day waiting for water to run down sufficiently to permit the building of a "shoo-fly" around a burned bridge. It is hoped that the train will be able to get away to Canitas to-night.

In the meantime, General Villa has not been idle. By means of a field telegraph he has been in constant touch with division commanders in the field, in the vicinity of Zacatecas, and has directed the movement of troops all day. When once he leaves Jimulco he will have clear track into Canitas or even into Fresnillo, at which two points the great bulk of his army is concentrated. Canitas should be reached early to-morrow morning.

If General Villa has had any reports of fighting anywhere to the southward he has not made them. He has had a number of dispatches from General Panfilo Natera during the day, but all related to the disposition of troops, the sending up of supplies and kindred topics, but not to actual fighting.

There has been some bloody skirmishes somewhere on the Zacatecas battlefield has been made evident by the number of wounded sent to the hospital at Torreon since a week ago to-night. The washout which is holding Villa from going toward Zacatecas is holding a train carrying fifty-seven wounded men from proceeding toward Torreon, and the poor fellows are suffering tortures on the hard floors of the iron-roofed box cars in which they are being transported.

One of General Villa's first acts when he found they were held up on the other side of the river, was to clamber across the stringers of the burned bridge to call on them and encourage them. On his return to his own train, he caused many supplies to be sent the sufferers from his own store, though he had to apologize because of the lack of delicacies fit for the sick men in his stock.

Among dispatches received by General Villa since his arrival at Jimulco was one from his attorney in El Paso, advising him of complaints made by Americans at Maroma and at Machula.

When Mr. Villa was given the protection they were entitled to, General Villa immediately issued another sweeping order to all commanders and minor chiefs throughout Constitutional territory to investigate and make out proper punishment for the offenders. He also urged his attorney to send him details of all complaints of foreigners. In order that he might make an investigation and make out proper punishment for the offenders. "I am going to stop these complaints," said Villa. "If I have to resort to extreme measures, I may have to make a list of the names of the offenders and it may be that the sooner I do it, the sooner the offenses will stop."

## PERPLEXING MYSTERIES

They Grow Out of Accident in Which Mrs. Flagler was Injured.

[Special to The Times-Dispatch.]—Greenwich, Conn., June 22.—Two perplexing mysteries have resulted from the automobile accident in Hartford on Saturday night, in which Mrs. John H. Flagler, wife of the Standard Oil and railway magnate, was injured. The first is the extent of Mrs. Flagler's injuries. It was said to-night that Mrs. Flagler home that Mrs. Flagler was not there. Not a word can be learned concerning her condition, but a trained nurse has been at the house ever since Saturday night.

The other puzzle is the present whereabouts of the Rev. Percy Stickney Grant, supposed to have been another victim of the crash, and suffering from an injured back, who told the police he was "Mr. Stone." The police have ascertained that "Mr. Stone" was a fictitious name. Mr. Grant addressed a meeting two hours before the crash on the Hudson, at which Mrs. Flagler was present. Since then he has disappeared, and it is supposed he is either hidden in some hospital or under medical care at the Flagler home.

## SEARCHING THEIR RECORDS

Wilson's Nominees for Reserve Board Under Committee's Dispatch. Washington, June 22.—Searching the records of the five men President Wilson has nominated for the Federal Reserve Board began to-day in the Senate. Committee members are expected to make a thorough investigation of the administration indicated they would press for early confirmation of the nominees, and several Senators seemed surprised when President Wilson's explanation of how Theodore D. Morgan, Chicago, came to own one share of stock in the International Harvester Company. President Wilson expects a fight on confirmation of nearly all the nominees, but it was not clear whether he named them to the President to-day that he thinks the board the best it was possible to get, and will stand behind it.

Mrs. Bronson Howard Dead. [Special to The Times-Dispatch.]—London, June 22.—Mrs. Alice Howard, widow of Bronson Howard, the famous American playwright who died in 1908, and sister of Sir Charles Wyndham, the English actor, died here on Saturday.

## "DRY" WEST VIRGINIA FACING BIG DEFICIT

Prohibition Amendment Becomes Effective on July 1, and Is Expected to Cause Higher Taxes.

## "FOR RENT" SIGNS NUMEROUS

All Saloon and Brewery Property Must Be Disposed Of by Midnight of June 30—Cities Are Heavy Losers.

Wheeling, W. Va., June 22.—The prohibition amendment to the State Constitution, prohibiting the manufacture or sale of intoxicants within the confines of the State, becomes effective on July 1.

The change will mean thousands of dollars' loss in revenue, and measures of economy are being devised for the interim between now and next January, when the prohibition law meets and can devise ways and means of increasing the revenue to make up this big deficit.

Cities are arranging to tax everything that is taxable and increasing the taxes on articles and privileges already taxed. Already many cities have arranged to boost the license on automobiles, poolrooms, etc., and the Finance Committee of the Wheeling City Council has drawn up an ordinance levying a license tax on saloons and breweries, ranging from \$10 a year for saloons to \$500 for breweries, capital of \$5,000 to \$175 to those with a million capital.

Wheeling, the largest city in the State, loses heaviest in revenue as a result of the amendment. The saloons and breweries lost \$12,218 annually into this city's exchequer. Three large breweries which go out of business in this city represent with their equipment \$2,832,000, and the prohibition law means practically the confiscation of this property, along with that of the breweries and saloons throughout the State. These three breweries employ 211 persons, and they paid out annually to their employees \$533,132.92. The wholesale and retail liquor dealers of this county paid in licenses to the State annually \$167,990.

One of General Villa's first acts when he found they were held up on the other side of the river, was to clamber across the stringers of the burned bridge to call on them and encourage them. On his return to his own train, he caused many supplies to be sent the sufferers from his own store, though he had to apologize because of the lack of delicacies fit for the sick men in his stock.

"I am going to stop these complaints," said Villa. "If I have to resort to extreme measures, I may have to make a list of the names of the offenders and it may be that the sooner I do it, the sooner the offenses will stop."

The State tax commissioner is expected to make a list of all saloons and breweries in the State, and he is being kept busy interpreting the law. He has decided residents of the State may treat their friends in their own homes, but they must be received personally by the consignee, who must attach his own signature for their receipt. State and city officials are cooperating to enforce the law, and to prohibit Ohio authorities with co-operation with West Virginia authorities in preventing "bootlegging."

## FORTY PERSONS INJURED WHEN CAR STRIKES BARN

Sandusky, O., June 22.—Forty persons were injured, several probably fatally, when an eastbound limited car on the Lake Shore Railroad ran into a siding near here late to-day. Though officials of the road said to-night an investigation would have to be conducted before responsibility for the wreck was determined, several passengers expressed the opinion that the switch connecting the siding with the main track was open when the car struck it. Few of the passengers escaped superficial injuries.

## PERMISSION TO ISSUE BONDS IS REFUSED

New York, June 22.—The denial to-day by the court in St. Paul, Minn., of the application of the St. Paul and Northern Pacific Railroad Company for permission to issue \$1,371,000 of receivers' certificates to pay the July 1 interest on the first and refunding bonds, will result in default on the part of the railroad. A member of the refunding bondholders' committee said to-day that the committee would purchase the July 1 coupon and ask for deposits of the bonds.

Default on the interest will necessitate a material change in the reorganization plan that has been under consideration for some time, and will place the refunding bonds in a position to dominate in the rehabilitation of the property.

## RAILROAD COMPANIES TO REVISE THEIR RATES

No Further Action Will Be Taken by Shippers Until This Has Been Accomplished.

[Special to The Times-Dispatch.]—Raleigh, N. C., June 22.—Chairman E. L. Travis, of the North Carolina Commerce Commission, is back from Norfolk, where he went to take a hand in the interest of North Carolina shippers in a hearing held there last week before a representative of the Interstate Commerce Commission on a petition of the railroad companies for permission to continue to charge through freight rates to North Carolina points that exceed the combination on Norfolk, that being the combination of the rate to Norfolk and the rate from Norfolk to the point of destination.

The Corporation Commission had filed a petition with the Interstate Commerce Commission against this practice of the railroad companies, using a series of rates from northern and southern points, through Norfolk, to Charlotte, as illustrating alleged abuses that need remedying.

At the Norfolk hearing the railroad companies announced their intention of revising their rates in such way as to eliminate nearly, if not all, of the North Carolina rates that are in excess of the combinations of locals, and in the light of this announcement, it was decided not to go into these matters until this revision is completed and submitted. Then, if there are still abuses that are deemed of sufficient magnitude to carry before the Interstate Commerce Commission in special hearings, this course will be taken with a special case for each objectionable rate.

The Corporation Commissioners will go to Asheville to-morrow to give a special hearing in the case of a petition on the part of citizens of that city, charging that the Buckeye Water Company, which supplies the water service for the place, is providing an inadequate supply. The West Asheville water supply is entirely separate and apart from the Asheville water plant, which is owned and operated by the city.

Adjutant-General L. W. Young, of the North Carolina National Guard, has completed an official estimate of the cost of the practice cruise of the four North Carolina divisions of naval militia on board the battleship Rhode Island, that footed up \$7,500. This will be sent to the War Department at Washington for the procurement of the money with which to pay the officers and men. They will embark July 6 and disembark July 20, the pay of the officers and men being the same for the period that the regulars receive.

igation of Nicaraguan affairs, and then favorably reported the resolution. It provides for an investigation of "all or any transactions" leading up to the proposed treaty. Some Democratic Senators were greatly opposed to the suggested inquiry, but Chairman Stone told them that such an inquiry was now really under way, and he believed it would be a good thing to look into the whole situation. The New York bankers representing Brown Bros. & Co. and J. and W. Seligman & Co. will be summoned before the committee.

Liquor Bill Is Upheld. Jackson, Miss., June 22.—The Mississippi Supreme Court to-day upheld the prohibition law, and the recently passed Lewis-Mott liquor bill providing that only one gallon of liquor may be shipped to any person in "dry" territory at any one time. The decision upholds the spirit of the Federal Webb-Kenyon act.

Loss in Revenue to the State as a result of the operation of the prohibition amendment in licenses from saloons, breweries and distilleries is \$615,734 annually. This does not include the loss to cities and counties. The amendment will close about 500 saloons in the State. There have been thirty-seven dry counties in the State, one in which there is only one wet county, three with two wet counties and one with four wet counties. All the other counties are wet.

Key West Is Ashore. An unidentified steamer, sailing under a Danish flag, is reported aground on Rebecca Shoals, forty miles out of here. Wrecking tugs have gone to her.

## SONS JOIN BOARDER IN ATTACK ON FATHER

William F. Dabney Set Upon and Beaten When He Calls on His Wife.

## COUPLE HAD BEEN SEPARATED

William Beecham and Dabney's Two Sons Are Placed Under Arrest. Father Has Fractured Arm, Broken Nose and Other Injuries.

While calling upon his wife, from whom he had been separated for several months, William F. Dabney, a carpenter, was set upon and beaten last night by his two sons, aided by William Beecham, a boarder in the Dabney household, at 1830 Venable Street. The sons, Ollie, twenty-two years old, and Louis, sixteen years old, together with Beecham and Mrs. Dabney, were placed under arrest on a warrant charging them with felonious assault. Dabney is in the Virginia Hospital with a fractured arm, a broken nose and innumerable cuts and bruises on his limbs and body.

The trouble occurred at 9:30 o'clock, in the front yard of the Dabney home. Dabney, who left his wife, called upon her for the purpose of effecting a reconciliation. It is said, he was met by Beecham, who engaged him in an altercation. In the fight that ensued the two sons are said to have taken a prominent part. It is claimed that they belabored their parent with fence palings.

## DABNEY TAKEN TO VIRGINIA HOSPITAL

Neighbors came to the assistance of the injured man, and he was being cared for by them when the City Hospital ambulance, in charge of Dr. M. L. Boyle, Jr., and Patrolman F. M. Bost, quitted arrived. While the physician was rendering emergency treatment the officer was rounding up the alleged assailants.

The boys and Beecham were taken to the First Station. Ollie and the boarder were locked up, but Louis was sent to the Juvenile Detention Home. Mrs. Dabney, who is also charged with felonious assault, was not taken into custody on account of several small children, who needed her attention. She was summoned to appear in Police Court this morning.

Dabney is said to be passionately fond of his four smaller children, and they are the cause, he said, of his wish for a reconciliation. Neighbors have frequently seen him pass the house to get a look at them, and he has been in the habit of meeting them on the street without the knowledge of their mother. While the condition of the injured man is serious, it is not considered critical. It is possible, however, that he may have been internally injured.

First Reports Favorable. Charleston, W. Va., June 22.—First reports of the vote on the proposed proposition of the conciliation board of the settlement of the Kanawha strike were favorable. It is said that the Indian Creek district and accepted terms proposed by the board.

Wanted No Ceremony. [Special to The Times-Dispatch.]—Vienna, June 22.—Baroness Bertha Suttner, the world-famous peace advocate, who yesterday left for Berlin in which she expressed the wish that there should be no clergy, no speeches and no flowers at her funeral, and if possible, no ceremony at all. The body will be taken to Gotha to be cremated, and the ashes will be left there.
